Virginia Beach, VA [June 15, 2026: 11:08pm (EST)] — Author, pastor, missionary, and retired United States Navy officer James Langston has announced the release of *And the People Cried, Give Us A King! (Second Edition)*, an expanded two-volume examination of the presidency of Barack Obama and its continuing influence on American p tity.

d Kindle eBook formats on Amazon, the newly expanded Second Edition is presented as a two-volume

print edition and a complete Kindle edition, providing readers with a balanced assessment of one of the most influential and debated presidencies in modern American history.

Rather than presenting a partisan defense or political attack, Langston's work explores both the accomplishments and criticisms associated with the Obama administration while encouraging readers to examine evidence, historical context, and competing viewpoints.

"History deserves more than sound bites and slogans," Langston said. "My goal was not to tell readers what to think about Barack Obama. My goal was to encourage them to think more deeply about his presidency, its consequences, and what it reveals about America itself."

TWO VOLUMES. ONE CONVERSATION.

Volume I: The Rise and Presidency of Barack Obama examines Obama's remarkable journey from community organizer to Commander-in-Chief and explores the major events, policies, achievements, and controversies that defined his administration.

Volume II: The Legacy, Lessons, and Future of America evaluates the lasting impact of the Obama years and examines the lessons citizens, leaders, and future generations can learn from one of the most consequential presidencies in modern history.

Together, the two volumes examine Obama's rise from community organizer to Commander-in-Chief and explore key issues including economic recovery, healthcare reform, foreign policy, immigration, education, race relations, media influence, executive authority, political polarization, and the changing role of government in American life.

Unique features of the work include Presidential Report Cards, Citizen's Report Cards, and America's Report Card, designed to encourage thoughtful reflection, discussion, and civic engagement.

The expanded Second Edition also includes seven research appendices covering:

- Obama Administration Timeline
- Major Legislative Accomplishments
- Major Criticisms of the Administration
- Approval Ratings and Polling Data
- Economic Indicators (2009–2017)
- U.S.–Israel Relations Timeline
- HBCU Funding and Initiatives

Additional reference materials include Notes, Bibliography, Scripture Index, and extensive historical analysis.

Drawing inspiration from the biblical account of I Samuel 8, the work explores the timeless tendency of people to place unrealistic expectations upon political leaders and challenges readers to consider the responsibilities of citizenship alongside the responsibilities of government.

More than a study of a president, *And the People Cried, Give Us A King! (Second Edition)* is a study of leadership, citizenship, accountability, and the future of the American experiment.

Langston is the author of more than forty-five books and serves as Senior Pastor of Pilgrim Outreach Ministries International. Following a twenty-seven-year career in the United States Navy, he devoted himself to

ministry, missions, writing, and humanitarian outreach efforts throughout Europe, the Philippines and Asia.

The author and his wife, Cecilia, have been married since 1979 and continue their missionary work through Pilgrim Outreach Ministries International.
